
Data & Analytics Services

Partnering on Data with
Google Cloud

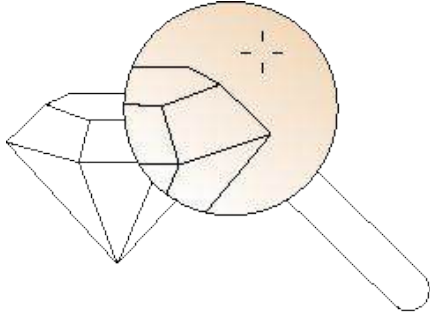

Drive innovation and accelerate
decision-making with insights that
matter.

Data & Analytics Services

Leverage analytics to transform information into impact

Tiger Analytics partners with enterprises to uncover high-impact opportunities and design tailored analytics solutions powered by the right talent, technologies, and governance.

Together with Google Cloud, we help you build responsible, scalable, and future-ready data ecosystems that unlock the full value of your data driving sustainable growth and competitive advantage.

Our Core Offerings

End-to-End Data Strategy

Align data initiatives with business priorities through integrated strategy, ensuring accuracy, consistency, and accessibility of insights.

Modernize Data

Transform legacy systems into scalable, agile data platforms ready for emerging technologies and AI-driven insights.

Migration to Google Cloud Data Platforms

Accelerate migration from legacy systems like Teradata, Hadoop, Netezza, DataStage, and Oracle to Google BigQuery.

Data-Driven AI Transformation

Leverage AI and ML to turn insights into intelligent, action-oriented applications that drive innovation and efficiency.

Data Compliance & Governance

Implement robust governance frameworks to ensure security, quality, and ethical data usage across your organization.

Our Accelerators Across The Data Lifecycle

Tiger Data Onboarder

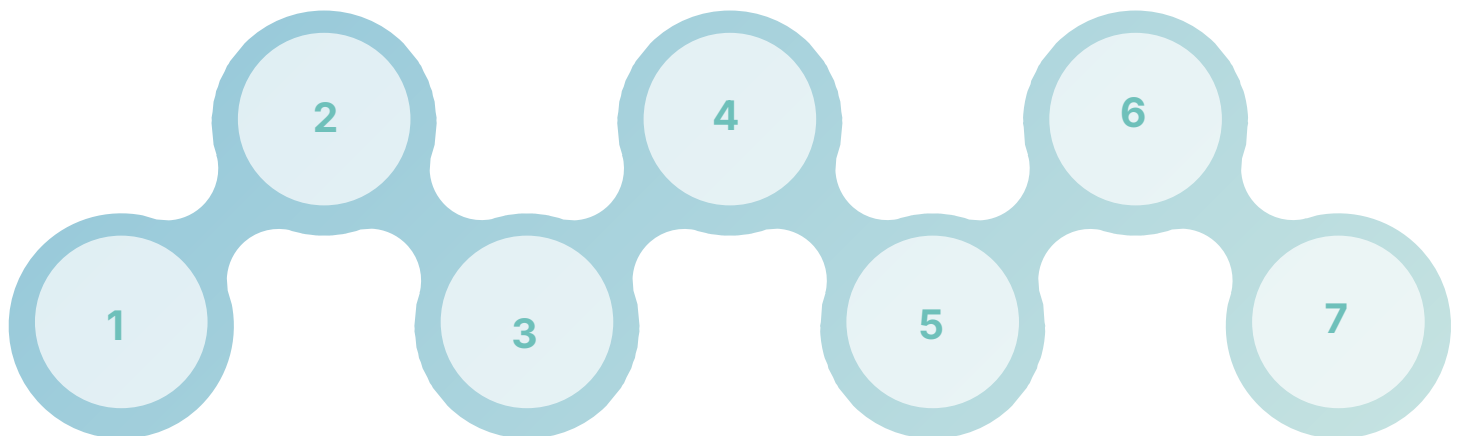

Schema-driven automation for
seamless data landing.

Tiger Observer

Standardized observability platform for
KPIs, metadata, and alerts.

Tiger Infra Provisioner

IaC-based environment setup
through automated configuration.

Tiger Data Fabric

Self-service accelerator for data
lake setup, ingestion,
transformation, and monitoring.

Tiger Data Catalog

End-to-end data discovery,
observability, and governance.

Tiger Dataform Library

Reusable dbt-based data
transformation and validation
framework.

Tiger FinOps Toolkit

Financial operations
framework to optimize cloud
ROI.

Why Choose Us

1

AI Powered Solutions

Transform decision-making
through AI/ML-enabled visual
analytics.

2

2x Faster Migration

Accelerated delivery via
next-generation execution
models.

3

50% Productivity Improvement

Real-time analytics through
scalable, modern architectures.

4

100% Data Validation

Full trust and accuracy through
end-to-end reconciliation.

About Us

Tiger Analytics is a global leader in AI and analytics, helping Fortune 1000 companies solve their toughest challenges. We offer full-stack AI and analytics services & solutions to help businesses achieve real outcomes and value at scale. We are on a mission to push the boundaries of what AI and analytics can do to help enterprises navigate uncertainty and move forward decisively. Our purpose is to **provide certainty to shape a better tomorrow.**

Being a recipient of multiple industry awards and recognitions, we have 6200+ technologists and consultants, working from multiple cities in 5 continents.
